

The News Letter of the Burlington Radio Control Modelers Club

Box 85174 Brant Plaza, Burlington, Ontario, L7R 4K4

Editorial

LAST EDITION! From me anyway. My first impersonation of an editor was in January 1999. Seven years plus half of this one later, 68 editions have been produced with varying success. Now it is time for me to hand over the job

of editor to someone else. The job includes maintaining a mailing list for members with and email address (for notification) as well as printing the edition, addressing and stuffing envelopes and mailing to those members who require your newsletter delivered by Canada Post.

Over to you. If you would like the job, I'll be pleased to provide you with whatever assistance I can. Contact me at the usual email address:

Cheers. Lawrence (Binker@Sympatico.ca).

30

Thursday, May 25th.

Show & Tell

Bring your latest and tell us about it.

Mall Show

Friday 26th at 9 PM.

thru

Sunday at 6 PM

We need volunteers to man our 'booth' Roster to be developed at the meeting.

Contact Dale Eldridge

AND EXPOSITION**

Takes place at the Stoney Creek airfield, 648 Mud
Street E. (Corner of Mud and 6th Road)

on

August 19 - 20

Contact your BRCM representatives for this event
Bill Swindells & Art Titmarsh

July 1st.

**Canada Day
Celebrations at
Bayview**

If I could just get it off the grass, it might fly...

This from Jim Reilly

A picture of our club's representation at the Beaver's Event at Camp Manitou on Sat May 6th. This event was run by Jim Reilly. Dale Eldridge.

Saturday May 6, the beavers had their "Beaver Bee" event at Camp Manitou, located about 20 miles north of Burlington. Beavers are mini-cubs/scouts, in the 5-8 year old category. The organisers asked our club if we would like to put on a show, and Dale, Ivan and Jim were dumb enough to agree.

For the first part of the day, we had a static display showing off some of our aircraft. The beavers visited it in small groups. The little guys were partially amused with this, and we managed to keep the attention of each group for at least 30 seconds. At the end of the day, we put on a live flying demo in one of their larger fields. Their reaction was fabulous-- every time the plane looped or rolled or whatever, great hoots of delight went up from our audience.

The nice thing about the event was the large number of Moms/Dads and adult helpers who were there keeping order. A large impression was left on them as well. So hopefully we managed to promote our club along with amusing the beavers.

Based on the overall reaction from everybody, we can expect a call next year. Hopefully we'll see a few more members from our club come out. It really was a fun event. We could certainly do with some electrics and helicopters.

FLYING GUESTS

Please observe the following club rules with reference to guest who fly at either of our fields:

Guest pilots must be members of MAAC, AMA, or the equivalent association if they are from abroad must have their wings or pilot license and must follow the club safety rules.

Guests are most welcome and it is up to the member responsible to ensure that the above is followed. It is also up

to the member not to abuse the guest privileges. If a guest is expected to be visiting for an extended temporary period of time a special dispensation should be obtained from the executive.

All other guests are expected to join the club if they wish to continue flying, it is only fair to other members of the club who have paid their dues and help maintain the club facilities.

FREELoadERS are not welcome.

Stuff wanted and for sale:

If you have stuff you want to sell, send detail to your editor at Binker@Sympatico.ca

This from **Bill Montgomery**, William@EclecticFlight.com

For Sale:

Carl Goldberg Staudacher S300 Kit, new (not ARF)

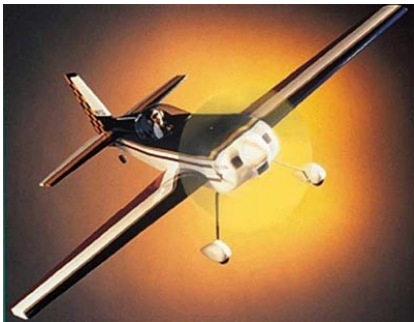

60 Size Aerobatic. Details at:

<http://www.carlgoldbergproducts.com/staudacher.htm>

Review at:

<http://www.modelairplanenews.com/ma/reviews/s300gs.asp>

Asking \$150 OBO

Tony Moore has a Gold Edition P40 Warhawk partially built that he would like to dispose of. The Tail Feathers are complete, flaps built, Wing basic structure complete, needs sheeting and final finish..

Set of Robarts 90 degree retracts, instalation done, Kit cost \$250.00.

Go and see it and make him an offer.

Tony Moore 122 Fairwood Place West. Burlington 905 333 4902 and at anthonyandaudrey@sympatico.ca

Bronte Field Open

This from Tom Gwinnett:

Bronte opened on the 3rd of May, cut, rolled, grass fed and weeds slaughtered. It looks just great.

The cover for the Chicky is due to be put on over the May 24 weekend, and by then the new flight line fence will be installed.

Carl Finch was released from his duty as windsock installer to fly a trim little 36 size aerobat, and Gord Watson sat on his stool and pattered all over the sky the way he does most mornings. The plane that is, not Gord.

Norm Harris flew a DR1. This plane has been owned by Steve Plonka, yours truly and Norm Harris as well as the builder who is unknown (probably in hiding). It's a nice enough flyer but it's on the ground that it excels with a whole repertoire of swerves wiggles ground loops and nose-overs.

What is it?

I don't know, ask Norm Harris. Ed.

Who is it?

I do know, but ask Norm Harris anyway. Ed.

Its specialty of course is the inverted rest on landing. (See picture on page 2)

Lawrence Cragg gave his "Little Toni" its maiden flight. Presumably an Italian design. A very elegant little plane.

I flew my North-Star for the first time and am happy to report there will be a second time.

Ted Pritlove flew his Super Sport 1000, and Steve Plonka turned up to watch.

It was a perfect Bronte day, and we look forward to many more this season.

TG

Finally

My thanks to all of you who have contributed to this newsletter over the past seven and a half years.

Lawrence aka Ed.

2006 Events Listing

Revised Feb. 28/06

Red indicates BRCM involvement
