November 2014

## From the President Nov. 2014

The good weather has certainly come and gone very quickly. I was fortunate to be able to attend six different flying events over the course of the summer.

I trust that BRCM members had an enjoyable season as well. Bayview and Bronte fields were kept in pristine condition throughout the season. For this, I would like to thank all the volunteers involved and the management efforts of Doug Edwards and Ivan Wismayer.

At the General Meeting, it was announced that the Portable Flight Station test program proved to be a great success and the program is now permanent. Eric Klepsch deserves full credit for his efforts with this initiative.

The upcoming General Meeting we would like to have a SHOW AND TELL so bring your latest and greatest to talk about. Anything novel about the aircraft should be highlighted.

In preparation for the upcoming January elections, I would like to encourage all interested members to run for our Board of Directors. This January, it will be particularly critical that we have a strong list of candidates as it appears that as many as eight current board members have decided not to run for re-election in 2015.

The list of those not returning, includes myself as President and as many as three other Officers of the club.

The positions of President, Vice President, Secretary and Treasurer are crucial to the club's operation so, if you are interested in running for one of these or as a Director, please contact me ASAP for more information.

Michael Block

Thursday Nov 27 Club Meeting  
Central Library 730 pm Show and Tell

Thursday Dec 18 Christmas Meeting  
Central Library 730 pm

## OCTOBER MEETING SHOW AND TELL ;

Paul Gentile brought his 1/7th scale Steinway Presidential piano. A wonderful work of art. Paul spent 16 years creating this masterpiece and yes it does make music.

## OCTOBER MEETING SHOW AND TELL

Tim Bidwell brought his Freewing Mirage along to the meeting.

Great looking model, Tim.

As a special treat Charlie Chomos showed his video of VRA's arrival back from the United Kingdom on Sept. 22nd. This was a great video and well received by the members. Thanks Charlie.

Next page shows two photos of RAF's Lancaster KCA and Canadian Warplane Heritage's Lancaster VRA together in the United Kingdom during August and September 2014, These photos are okay but not my choice to publish however after spending a morning searching the internet these were the only ones I could find that were acceptable. There were lots of U-tube sites but they did not help me.

**Challenge to Members:** Please send me an email with your favourite RC site or photo site with a one or two line note telling me why you like it. I will put these together and publish them for the membership's information. My email address is [Skywords@brcm.org](mailto:Skywords@brcm.org). Thanks Al

VRA and KCA together in the UK
