## Ooops!

As you know I usually have Skywords ready and posted about a week before the monthly meeting. This month I fouled up as I thought the meeting was on the 29th (even though it was clearly on my calendar as the 22nd). So here it is better late than never and I'll try to be on time in April.

Our noise code will be enforced at all times in the interest of good relations with our neighbours.

Karl Gross gave a great demonstration of foam cutting. Pictured is part of the tailplane of his current project, a “Cessna Crane”
